

# DECCAN PROJECT 2026

## 55PV Consumer Distributor Sales

The DECCAN PROJECT 2026 places significant emphasis on achieving 55PV (Purchase Value) sales by Consumer Distributors through the promotion and sale of Weight Wellness Lifestyle Products (WWK). This initiative is designed to encourage distributors to focus on health-oriented product lines, aligning with modern wellness trends and supporting the holistic well-being of consumers. By driving 55PV sales with WWK, distributors can unlock various growth opportunities and recognition within the organisation.
